

## Derma Gel

The Number One herbal skin hydrogel, for intensive and rapid skin care, plus a protective barrier effective against foreign contaminants. Derma Gel provides and maintains a moist epidermal environment, with the ability to help clean and deride necrotic tissue, encourage natural hair regrowth and maximise skin smoothness.

### Key ingredients

- Titr. Polysaccharides • Centella Asiatica
- Calendula Officinalis • Salvia Officinalis extract
- Thymus Vulgaris Extract
- Origanum Majorana extract
- Lavandula Officinalis extract • Glycerin
- Hydrogenated Castor Oil • Carbomer

**Available in** a 50ml spray for easy treatment of superficial lesions, and a gel in a unique 100ml pump dispenser, which keep Derma Gel free from contaminants and spillage.

*Derma Gel contains no traces of steroid and is completely safe to use on a mare in foal and competition horse.*

## Itchnomore

Itchnomore solution combines a soothing lotion to stop the itch with a potent long lasting fly repellent, which can be applied directly to one area, or diluted to create a soothing all over wash. As well as effectively deterring insects, Itchnomore soothes irritation and encourages healthy hair condition. Contains no toxic insecticides and should be applied every other day.

**Available in** 300gms.

## Natural Fly Spray

A unique combination of natural ingredients assures the horse owner of effective fly control, without the use of pesticides. Contains natural fly repellents formulated in a non-irritating, non-staining water base with Aloe and Lanolin.

**Available in** 946ml spray bottle.

## Like Ice

The revolutionary leg therapy that combines the cooling benefits of a 24hr kaolin application and a superior tightening brace. Like Ice contains Melaleuca and Aloe Vera, providing drawing qualities. When applied over minor cuts and abrasions, Like Ice rinses off easily, making it ideal for the busy yard.

**Available in** 2.7kgs and 11kgs tubs.

## Equi-Lin Green Liniment Concentrate

Equi-Lin is an invigorating, aromatic solution which, when mixed with water, creates a stimulating and refreshing 'all over' wash for muscles and limbs following strenuous exercise. In more concentrated form, Equi-Lin acts as a brace, to tighten and revive the tired body and legs.

**Available in** 3.8ltr

## Sore No-More

Voted "Best All Purpose Liniment" by the Horse Journal to soothe and relax tired ligaments, muscles and tendons. Used by top international physiotherapists Mary Bromily and Doug Hannum and by top professional riders. Effective and gentle, safe for sensitive skins.

**Available in** 250ml spray bottle.

## The Fungatrol Range Shampoo, Spray, Cream, Hoof Dressing and Solution.

Unfortunately, some of the anti-fungal products designed for horses are not always as gentle on the horse's skin as they should be. The Fungatrol range will ensure your horse is clean with a healthy skin and coat, and is ideal for use during the muddy seasons, but mild enough for daily use throughout the year.

**Fungatrol Shampoo:** a rich lathering non-irritating shampoo with powerful anti-fungal ingredients. **Available in** 473ml.

**Fungatrol Spray:** a 'leave on' water-based spray containing coat conditioners and anti-fungal ingredients. After washing the horse with Fungatrol Shampoo, spray all over, avoiding the eyes. Use frequently to maintain healthy supple skin.

**Available in** 360ml spray bottle.

**Fungatrol Cream:** a topical ointment for horses, for use during the wet muddy season as a protective barrier, or in combination with Fungatrol Shampoo for complete care.

**Available in** 120ml and 400ml tubs.

**Fungatrol Hoof Dressing:** 'Goodness not gloss' - a hoof dressing that conditions the hoof and encourages healthy growth, while allowing the foot to breathe and absorb water naturally. Also provides a barrier for all year round hoof protection.

**Key ingredients** • Pine Tar • Fish Oil • Lanolin • Vitamin E • Trushtol. **Available in** 473ml.

**Also Available:**

**Fungatrol Solution:** in a 3.8ltr container to cleanse your bits, mangers, tack, stable and horsebox thoroughly.

These products together offer a unique and complete system, ensuring your horse's skin and coat stay healthy and fungal free all year round.
