# Equine America

Equine America is the story of one extraordinary man from Aiken, South Carolina, USA – Bruce Snipes.

Bruce Snipes has spent the last forty years bringing untold benefit to horses, dogs, cats and people, by producing mould breaking natural products, including pioneering the introduction of electrolytes and biotin for horses.

One product in particular – CORTAFLEX – achieved the leading position in assisting joint mobility, in both the United States and the United Kingdom, within three years. This has been regularly confirmed, and the product has proved highly successful in double blind studies in both the UK and in the USA. The most recent of these, conducted by the College of Veterinary Medicine at Michigan State University, proved the effectiveness of Cortaflex within two weeks.

Additionally, Cortaflex has been awarded the accolade of 'Product of the Year' by the premier independent testing magazine in the USA - Horse Journal - who also considered Buteless (not Phenylbutazone) to be the most highly effective product in its field.

Another product that is receiving outstanding reports due to its revolutionary formula is Cortaflex HA - a combination of Cortaflex and Hyaluronic Acid.

Information about the full range of products distributed by Equine America UK – quality nutritional supplements, external applications and grooming aids – is set out on pages 4 - 23.

*Products That Really Work!*

## Supplements

Cortaflex HA Solution and Powder, Cortaflex HA Paste, Cortaflex Powder	4-5
Buteless, So-Kalm Plus	6
ProPell Plus, V-Biotic	7
Hoof Power Plus, Lamigard	8
Kentucky Joint Supplement, Tye-Gard, Apple Lytes	9
U-Gard Plus, Coff-Less	10
Hormosol, Shaker Gard, More Muscle	11
Bleader Gard, HerBolic, Emune	12
Hemogen, Hemo-Flex, Xtra Boost Paste	13
Dye Retic, Airways, Sand-Out, Progest-WT	14
Thiamine B1-Liquid, Vitamin C Powder, Vitamin E & Selenium Powder, Copper Plus Powder	15

## External Applications & Grooming Aids

Derma Gel, Itchnomore	16
Natural Fly Spray, Like Ice, Equi-Lin, Green Ice Gel	17
Fungatrol Shampoo, Fungatrol Spray, Fungatrol Cream, Fungatrol Hoof Dressing	18
Super Groom Mane & Tail, Super Groom Waterless Grooming, Super Groom Whitening Shampoo	19
Sheath Cleaner, Citronella Shampoo, Tea Tree Shampoo, Equine Shampoo	20
Sore No-More, Black Draw (Ichthammol)	21

## Canine & Feline

Inflamex, Canine Pro-Pell	21
Canine & Feline Cortaflex Solution, Canine & Feline Cortaflex Capsules, Canine & Feline Cortaflex Powder	22

## Human Cortaflex

Human Cortaflex Capsules, Human Cortaflex Solution, Human Cortaflex HA Capsules	23

## Cortaflex

Constant pounding on artificial, hard or heavy ground is very demanding on joints - even hacking can cause abnormal wear and tear. Feeding a proven joint supplement can help to redress the balance and support healthy joint function.

Cortaflex nutritionally supports the health of every joint in the body, providing nutrients for lubrication and flexibility and improving all-over performance.

### Beyond Chondroitin and Glucosamine

Cortaflex has been formulated around the concept that smaller molecules are more likely to be absorbed than larger ones. Cortaflex, therefore, contains the smaller key active isolates of Chondroitin and Glucosamine – Glutamine, Glucuronic Acid, Glutamic Acid, Proline, Glycine, and must not be compared or confused with the many joint supplements that rely on the much larger Chondroitin and Glucosamine molecules.

Cortaflex - the world's number 1 otc equine joint supplement, now contains Hyaluronic Acid.

### Hyaluronic Acid

Hyaluronic Acid (HA) is a major component of joint lubricating fluid, essential for absorbing concussion and providing cartilage with nutrients and lubrication for movement.

### The Clinical Trial

Cortaflex is the only otc equine joint supplement to have achieved a significant improvement in the symmetry of equine tarsal joint movement following a rigorous double blind clinical trial, conducted by the College of Veterinary Medicine at Michigan State University. This trial, undertaken by one of the leading equine research institutes in the world, used advanced measurement techniques including force plates and motion analysis to ensure that the data collected before and after the supplementation of Cortaflex was of the highest accuracy.

The outstanding results of the study were then presented by the author, Dr. Hilary Clayton BVMS, PhD, MRCVS, at the conference of the globally respected American Association of Equine Practitioners, and published in the conference proceedings.

## 1 Cortaflex HA Solution and Powder

– Cortaflex fortified with a high level of Hyaluronic Acid

Its never too late! Cortaflex HA has been specially formulated for horses with joints that have experienced excessive wear and tear, and for horses which are competing or in hard work. Cortaflex HA can be fed permanently or as a 'kick start' before maintaining on Cortaflex Powder.

**Available in Solution - 946ml (a one month supply), 3.8ltr and 20ltr - and in Powder 450gm (a one month supply), and 4.5kg.**

*“To keep my team sound and supple I run them on Cortaflex HA Liquid and maintain them on Cortaflex Powder, and for myself I take Cortaflex capsules.”*  
Pippa Funnell.

## 2 Cortaflex HA Paste

Concentrated Cortaflex HA in an easy to administer 3 day paste, ideal as a pre-competition boost.

*“Dressage is all about flexibility and power. When it comes to management, attention to detail and quality is the key – that’s why I use Cortaflex HA .....I think the results speak for themselves.”*  
Richard Davison.

## 3 Cortaflex Powder

– fortified with a maintenance level of Hyaluronic Acid.

Highly effective and economic, Cortaflex Powder is the most popular in the Cortaflex range and ideal for young, old, active and retired horses.

**Available in 227gm (a one month supply at maintenance), 454gm, 908gm and 3.6kg.**  
**From under 40p per day.**

#### 4 Buteless

Buteless (not phenylbutazone), is a natural and palatable formulation, containing a potent combination of Devil's Claw and Yucca. In an independent test the Horse Journal stated that Buteless was clearly the most effective alternative when compared to many leading Devil's Claw and Yucca products.

**Available in 946ml (a one month supply at maintenance), 3.8 ltr and a 30 ml paste (three servings).**

#### 5 So-Kalm Plus

All horses have some degree of nervousness while being prepared for and during exercise or competition. Some are so highly strung that they “wash-out” before competition, preventing them from giving their best. The amino acids and Vitamin B1 in So-Kalm Plus will relax your horse without removing the “edge” required for competition. So-Kalm can also be fed daily to aid in the training of young, nervous or excitable horses.

**Available in 908 grams (a one month supply at maintenance) and a 30ml paste (three servings).**

*“I use Cortaflex as standard for the older horses in work, and the younger horses benefit from So-Kalm when they first start competing.” Robert Smith*

## 6 ProPell Plus

An iron rich multi vitamin and mineral tonic for hard working horses, with Echinacea to support red blood cell production and the immune system. ProPell Plus aids efficient oxygen delivery for high levels of energy and performance. Ingredients include Vitamins A, B1, B2, B6, B12, D3, E and K, Folic Acid, Choline, Echinacea, Magnesium, Iron, Copper, Potassium, Sulphur, Selenium and Manganese.

**Available in 946ml (a one month supply at maintenance) and 3.8ltr.**

*"I use ProPell Plus throughout the whole yard, it's an integral part of all of the horses diets and a major contribution to their well being."*

*Tim Stockdale*

## 7 V-Biotic

More than just a feed balancer!

Super concentrated - V-Biotic has been specially formulated to provide a balanced mix of essential vitamins and minerals that your horse or pony needs, and which may be lacking in their domestic diet. Additionally, V-Biotic contains Echinacea for the immune system, Turmeric for a healthy liver, highly effective probiotics and powerful anti-oxidants, as well as the very best ingredients to support bone, hoof and muscle tissue and benefit the circulatory system.

**Available in 908gm (a one month supply) and 3.2kg.**

**8 Hoof Power Plus – for strong healthy hooves.**

Hoof Power Plus is a highly effective daily supplement to ensure optimal horn growth and hoof condition. It contains the very best quality ingredients, including a generous 25mg of Biotin per 14 gram serving as well as Zinc, Methionine, Vitamin B6, MSM, Yeast Cultures and Seaweed, making Hoof Power Plus a powerful complete hoof supplement. Hoof Power Plus is prepared in powder, not pellets, as the high temperatures required for pelleting can be detrimental to vitamin content.

**Available in 454gm (a one month supply) and 908gm.**

*“I was very pleased by the effects of Hoof Power Plus. I used it on my mare for one month, and I have to tell you I was amazed. The top 2 cm of her hooves grew vigorously and looked and felt strong and healthy. Hoof Power Plus is the first and only hoof supplement I will recommend to my clients and use for my own horse.” Hanne Engstrom, MRCVS.*

**9 Lamigard**

Lamigard is formulated for the horse or pony which is prone to Laminitis, containing powerful antioxidants including Super Oxide Dismutase. This amazing product is highly effective in supporting healthy enzyme levels within the hooves and providing nutrients to the internal sensitive structures, as well as promoting external hoof wall growth and condition. Lamigard is extremely effective but very gentle on the rest of the system and can be fed to the in foal mare.

**Available in 454gm (a two month supply at maintenance for an average pony) and 908gm.**

*“I am always very cautious about these types of products, but I have found Lamigard to be outstanding.” Dr. David Platt BVSc., PhD., DEO., FRCVS.*

## 10 Kentucky Joint Supplement

If it's Glucosamine you want then Kentucky Joint Supplement has to be your choice. There is surely no stronger or purer Glucosamine supplement on the market, but if you want the best for your horses joints we strongly advise you to use Cortaflex. Glucosamine in our opinion does not belong on the same page as Cortaflex!

Each serving provides 10,000mg of 99% pure Glucosamine HCl.

**Available in 500gm (a 50 day supply). Economically priced at £19.99.**

## 11 Tye-Gard

Formulated for horses on highly nutritious diets performing strenuous exercise. Tye-Gard solution contains highly absorbable human grade Vitamin E and Selenium to promote healthy muscle function and lactic acid levels.

**Available in 946ml (a two month supply at maintenance) and 3.8ltr.**

*"I use Tye-Gard on horses within my care, I believe it is the best product of its kind on the market." Henrietta Knight*

## 12 Apple Lytes

*'The' electrolyte for your horse or pony.*

A special preparation of micro blended, fruit flavoured mineral salts to assist re-hydration and replenish vital body fluids and electrolytes after strenuous exercise. Apple Lytes is highly soluble and can be given in the feed or mixed into the drinking water without sinking to the bottom.

**Available in 1.8kg (a one month supply at maintenance), 6.8kg, 13.6kg and a 30ml paste (two servings)**

### 13 U-Gard Plus

A calcium based supplement containing neutralising alkaline agents to gently soothe and coat the stomach lining, making it ideal for the horse with a sensitive stomach. Found to be the most effective and affordable alternative by the Horse Journal. Key ingredients in U-Gard include Liquorice, Aloe Vera, Calcium Carbonate, Kaolin, Iron Oxide, Dried Apple Pectin Pulp, Magnesium Silicate, Vitamin B5 and Magnesium Oxide.

**Available in 1.6kg (a 40 day supply).**

*"After getting such outstanding results with Cortaflex HA I decided to try U-Gard on a couple of horses. Their appetites and overall appearance improved dramatically, I now use both of these products on a regular basis." Peter Bowen.*

### 14 Coff-Less

Coff-Less is specially formulated using herbs and natural ingredients including Fenugreek Seed Powder, Kelp Meal, Garlic Powder, Gentian and Mullein Extract for healthy lungs and respiratory system. Coff-Less also contains Glycerine to soothe and lubricate the throat, Oil of Eucalyptus to clear the airway and Echinacea to support the immune system.

**Available in 908gm (a two month supply at maintenance)**

*"I used Coff-Less and Emune on Limestone Lad and Solerina - I was amazed with the results"*  
Michael Bowe.

*"Since I started using Cortaflex two years ago on my international horses their results have significantly improved! I swear by Cortaflex and now use it on the whole yard." Ellen Whitaker.*

## 15 Hormosol

Hormone imbalances can lead to poor performance, sensitivity and mood swings. Hormosol is a liquid Chaste Berry supplement to naturally maintain a healthy hormone balance in mares and stallions.

**Available in 946ml (a month supply).**

## 16 Shaker Gard

Shaker Gard provides an intricate mix of specific minerals and supporting vitamins, along with powerful anti oxidants to vitalise the key nervous, muscular and skeletal structures.

**Available in 908gm (a two month supply at maintenance).**

## 17 More Muscle

More Muscle is a powerful liquid Gamma Oryzanol supplement for optimal muscle capacity and condition. More Muscle is ideal when preparing for the show or competition season, and for preparing young stock - condition can then be maintained using V-Biotic.

**Available in 946ml (a two month supply at maintenance).**

**18 Bleader Gard**

Bleader Gard, with Arnica Montana and Cinchona Officinalis, helps to maintain the vital respiratory and circulatory organs, and support the optimal capability required for strenuous exercise, whether in short bursts or over longer periods of time. Without Bleader Gard, performance can be badly affected.

**Available in 908gm (a two month supply at maintenance) and a 30ml paste (three servings).**

**19 HerBolic**

A powerful, fast acting herbal supplement, for horses needing to achieve their highest performance level. HerBolic contains Vitamin B12, Ribose, Passiflora Caerula, Puncture Vine Root and Rutin to encourage appetite and healthy muscle tone, helping the horse have the attitude and keenness to win!

**Available in 946ml (a two month supply at maintenance)**

**20 Emune**

Contains powerful extracts of Echinacea and Astragalus – highly effective in maintaining a healthy immune system particularly at times of stress.

**Available in 946ml (a one month supply at maintenance)**

## 21 Hemogen

Hemogen sets new standards for blood tonics. Most blood tonics marketed today contain only a few ingredients responsible for red blood cell production. This is where Hemogen is unique; every ingredient is active and water soluble, allowing each nutrient to be utilized for optimum energy and stamina levels. Key ingredients include Iron, Vitamin B12, Riboflavin, Vitamin E and Thiamine, along with Copper, Cobalt, Selenium, Glycine, Niacinamide and Pyridoxine,

**Available in 946ml (a one month supply at maintenance)**

## 22 Hemo-flex

Cortaflex, Tye-Gard and Hemogen all condensed into one product! Hemo-flex is the ultimate competition supplement for joints, muscles and blood.

**Available in 946ml (a one month supply at maintenance) and 20ltr.**

## 23 Xtra Boost Paste

For horses in competition, Xtra Boost Paste is a highly effective combination of rapidly absorbed vitamins and minerals. Use as a three day build up for a show or event to maximise performance.

**Available in 30ml paste (3 day course).**

**24 Dye Retic**

A unique blend of herbs to support the horse in the maintenance of a healthy balance of fluid within the body. Dye Retic is a palatable solution containing Juniper Berries, Uva Ursi and Buchu.

**Available in 946ml (31 servings).**

**25 Airways**

Airways is a pre-event mouthwash, to encourage maximum air intake essential for optimal performance over the duration of the competition. Airways contains the natural ingredients Vinegar, Honey, Glycerine, Eucalyptus and Peppermint to lubricate and dilate the respiratory tract.

**Available in 473ml (31 servings).**

**26 Sand-Out**

A digestive aid for horses and ponies grazing on sandy pastures. Sand-Out contains multi-active fibre that encapsulates dirt and sand, supported by effective system lubricants, helping sand and dirt to pass through the digestive system. Sand-Out is non-abrasive and gentle.

**Available in 1.3kg (a one month course). Larger sizes available on request.**

**27 Progest-WT**

A weight gain supplement for horses of all ages and activities, containing yeast cultures to encourage the efficient utilization of food.

**Available in 908gm (a month supply a maintenance)**

**28 Thiamine B1- Liquid**

Available in 3.8ltr (4 month supply)

**29 Vitamin C Powder**

Available in 908gm (64 day supply)

**30 Vitamin E & Selenium Powder**

Available in 908gm (64 day supply)

**31 Copper Plus Powder**

Available in 908gm (45 day supply)

*"I need my horse's to be as sound and supple as possible,  
that's why I use Cortaflex."  
Laura Richardson*

32

**Derma Gel**

The number One herbal skin hydrogel, for intensive and rapid skin care, plus a protective barrier effective against foreign contaminants. Derma Gel provides and maintains a moist epidermal environment, with the ability to help clean and deride necrotic tissue, encourage natural hair re-growth and maximise skin smoothness.

**Available in a 50ml spray and a gel in a unique 100 ml pump dispenser, which keeps Derma Gel free from contaminants and spillage.**

*Derma Gel does not contain steroids and is completely safe to use on a mare in foal and competition horses.*

33

**Itchnomore**

For horses and ponies prone to itching. Itchnomore can be applied directly to one area or diluted, to create a soothing all over wash. Itchnomore soothes irritation and encourages healthy hair condition - apply every other day for maximum benefit.

**Available in 300 gms.**

### 34 Natural Fly Spray

A unique combination of natural ingredients assures the horse owner of effective fly control, without the use of pesticides. Contains natural fly repellents formulated in a non-irritating, non-staining water base. HSE Approval 7883.

**Available in 946ml spray bottle.**

### 35 Like Ice

The aromatic tighteners contained in Sorboplex™, the key ingredient in Like Ice, begin working on contact. The 24 hour kaolin base cools, while Aloe Vera and Melaleuca soothe and moisturise. Like Ice rinses off easily, making it ideal for the busy yard.

**Available in 2.7kg and 11kg.**

### 36 Equi-Lin

Equi-Lin is an invigorating, aromatic solution which, when mixed with water, creates a stimulating and refreshing 'all over' wash for muscles and limbs following strenuous exercise. In more concentrated form, Equi-Lin acts as a brace, to tighten and revive tired body and legs. Contains no Camphor.

**Available in 3.8ltr.**

### 37 Green Ice Gel

A soothing, cooling, easy to apply gel for 'tired' limbs.

**Available in 1.9ltr.**

# The Fungatrol Range

The effects that exposure to rain and mud can have on horses legs and back are distressing and often very painful for the horse. To avoid these problems would mean keeping horses in all winter, but not any more - thanks to The Fungatrol Range! The Fungatrol range, with its powerful anti-bacterial and anti-fungal ingredients, will protect and condition your horses skin, coat and hooves, all year round, combining potent ingredients with gentle action for amazing results.

## 38 Fungatrol Shampoo

Washing with water alone can strip the skin of its natural protective oils - Fungatrol Shampoo can be used to wash the whole horse or individual areas, protecting the skin from bacteria and fungus. This powerful lathering shampoo is a great start to the Fungatrol programme. Leave on for 20 mins before rinsing for full benefit.

**Available in 473ml.**

## 39 Fungatrol Spray

A 'leave on' water-based spray containing anti-fungal and anti-bacterial ingredients with added coat conditioners. After washing the horse with Fungatrol Shampoo spray all over to maintain healthy supple skin.

**Available in 360ml.**

## 40 Fungatrol Cream

Smear Fungatrol Cream all over the clean dry legs and heels to create a waterproof barrier against the wet while conditioning and protecting the skin underneath from bacteria and fungus.

**Available in 150ml and 400ml tubs.**

## 41 Fungatrol Hoof Dressing

'Goodness not gloss' – a hoof dressing that conditions the hoof and encourages healthy growth, while allowing the foot to breathe and absorb water naturally. Also provides an anti-fungal and anti-bacterial barrier for all year round hoof protection.

**Available in 473ml.**

# Super Groom

The Super Groom range provides the best quality products for the ultimate grooming kit. Ideal for show preparation or every day use to ensure you have the smartest horse in the yard!

## 42 Super Groom Mane & Tail

After washing the mane and tail with Equine America shampoo, just spray on Super Groom Mane & Tail and brush through, for a healthy, silky (not brittle), tangle free finish. The real alternative to silicon based products.

**Available in 473ml.**

## 43 Super Groom Waterless Grooming

Removes stains and highlights white markings – producing show ring shine without washing. Super Groom Waterless Grooming is a non-silicon, non-slip, non-static formula, making it an ideal all over grooming aid.

**Available in 473ml.**

## 44 Super Groom Whitening Shampoo

A whitening and colour enhancing shampoo with optical brighteners, moisturisers and conditioners, that naturally highlight the coat, bringing out the brilliance in light coloured coats, leaving white socks whiter than white, and darker coats with a deep rich colour.

**Available in 473ml.**

**45 Sheath Cleaner**

The natural solution for thorough cleansing of sensitive areas – the male horses sheath, and between the teats of a mare’s udder. This specially pH balanced formulation of Australian Tea Tree Oil and gentle cleansers are ideal for routine washing and removal of accumulated body oils and dirt. Ideal for use on the mare or stallion at stud.  
**Available in 473ml**

## Shampoo

Equine America offers a range of shampoos to cater for every need- all are rich lathering and gentle on the skin as well as being kind to the pocket.  
**All Shampoos available in 946ml and 3.8ltr.**

**46 Citronella Shampoo -**

a fragrant shampoo with citronella oils which is gentle on the skin and will leave your horse with the aroma of lemon zest.

**47 Tea Tree Shampoo -**

with Melaleuca and Aloe for horses and ponies prone to sensitive skin.

**48 Equine Shampoo -**

for head to toe cleaning at great value for money.

**49 Sore No-More**

Voted "Best All Purpose Liniment" by the Horse Journal, to soothe and relax tired ligaments, muscles and tendons. Used by top international physiotherapist Mary Bromiley and by top professional riders. Effective and gentle, safe for sensitive skins.

**Available in 250ml spray bottle.**

**50 Blackdraw (20% Ichthammol)**

Use as a topical application or hoof draw. A favourite with farriers and vets in the U.S.A.

**Available in 400gm.**

*Inflamex**The natural alternative for dogs*

Inflamex is a natural alternative with no known side effects. It is a potent combination of Devil's Claw and Yucca which can be used in the initial stages of feeding Canine & Feline Cortaflex, or when extra help is needed. Inflamex can also be used permanently alongside Canine & Feline Cortaflex.

**Available in 473ml**

*Canine Pro-Pell*

An Iron rich liquid dietary supplement to ensure your dog is receiving the necessary vitamins and minerals for health and vitality.

(Also suitable for cats)

**Available in 946ml**

# Canine & Feline CORTAFLEX

*"I own a border collie bitch whom, two weeks ago, I put on Cortaflex. She has now been allowed off her lead, something we thought we would never be able to do. Thank you for enabling my dog to have a good quality of life once more, she will stay on Cortaflex as long as she lives!"*

*Louise Holmes*

This is just one example from the many reports received from dog and cat owners, who daily confirm the benefits that they notice after using Canine & Feline Cortaflex.

## Safe & Natural

As dogs and cats age their joints will undoubtedly experience wear and tear. To keep their joints as healthy and supple as possible over the long term, feed Canine & Feline Cortaflex daily.

Wear and tear can also be exaggerated by breed conformation and growth spurts. Feed young animals, especially those breeds with associated weakness, Canine & Feline Cortaflex as part of their daily routine to support healthy joints for life.

## The Cortaflex difference

Unlike most joint supplements on the market, Cortaflex does not rely on the larger Chondroitin and Glucosamine molecules. Cortaflex is a unique formulation of the smaller molecule key isolates of Chondroitin and Glucosamine. That's the Cortaflex difference!

Cortaflex has now been fortified with Hyaluronic Acid for an extra boost to joint fluid, and remains the leading OTC product for canine and feline joint mobility.

Cortaflex is available in liquid, powder or capsules to suit your animals requirements.

# CORTAFLEX

The natural choice for healthy flexible joints

Cortaflex for People

"As a vet, I am the ultimate sceptic. However, after taking Cortaflex, I was totally amazed how well I felt - overnight! I have taken Cortaflex since that time, and it is my intention to carry on with it in the future"

**Peter Scott Dunn**  
L.V.O. M.R.C.V.S.

"I started taking Cortaflex on the recommendation of a local veterinary surgeon who had been very pleased with the canine and feline version, and halfway through my first bottle I was very satisfied. Instead of buying a second bottle right away, I was foolishly persuaded by an advert in a daily paper to purchase some less expensive tablets promising much higher levels of Chondroitin and Glucosamine.

After 2 months, I was so disappointed that I went straight back on to Cortaflex. I have been using Cortaflex ever since and I am absolutely delighted. So a very big 'thank you' to Cortaflex and I will NOT go for anything that seems a bargain again."

**Paul Bellamy.**

WRISTS • HANDS • KNEES • SHOULDERS • BACK • FEET • ELBOWS • ANKLES

## CORTAFLEX CAPSULES –

A small, easy to take sugar, salt, gluten and gelatin free capsule. Available in tubs of 60 - take one a day.

## CORTAFLEX LIQUID –

A pleasant tasting liquid available in 236ml. Take 4 – 5ml a day (equivalent to a teaspoonful).

## CORTAFLEX H.A. CAPSULES –

For joints which have experienced excessive wear and tear, or where an extra boost to the joints is needed. Cortaflex H.A. capsules contain double strength Cortaflex with an oral form of Hyaluronic Acid (H.A.), a major component of joint lubricating fluid. Cortaflex H.A. capsules can be used to 'kick start' the regular Cortaflex programme or taken permanently. Available in tubs of 30, take one a day.

Based on the hugely successful equine supplement for improved joint mobility that swept the United States and Britain, Extra Strength Cortaflex is now available in liquid and two capsule forms, for even healthier joints.

**... whichever Cortaflex you choose, you won't believe the difference!**

*"My run through Death Valley last year took the absolute maximum physical endurance that could be imagined. Cortaflex made the difference between success and failure. It proved itself an absolute winner! I would have no hesitation in recommending this to any one in all walks of life. My sincere thanks for making my attempt possible and achievable. Without Cortaflex I know this would have not been possible". [www.lonesole.org.uk](http://www.lonesole.org.uk)*

**Ray Mouncey**

*"Having tried several well known joint supplements on a horse that was proving difficult to train, we had decided that we could help him no more. Mary Bromiley, the well known physiotherapist suggested that we should try liquid Cortaflex. Amazingly it worked and the horse went on to win eleven of his twenty two races mostly in Listed and Group Company. I have been using liquid Cortaflex routinely ever since."*

**Marcus Tregoning**

*"I'd heard so much about Cortaflex, I decided to try the human version, I could hardly believe the difference in myself. My horses are now on it, and I have to say Cortaflex really does work."*

**Jonjo O'Neill**

*"Mondriaan is a young horse with a big future and, like the rest of my team, he is on Cortaflex."*

**William Funnell**
